PRESS RELEASE

HAMAD INTERNATIONAL AIRPORT ANNOUNCES FOUR ADDITIONAL AIRLINES TO BEGIN OPERATIONS THIS WEEK

From Thursday 22nd May Lufthansa, Air France KLM, Saudi Arabian Airlines and Oman Air will move operations to Qatar's new Hamad International Airport

19th May, Doha, Qatar: Hamad International Airport (HIA), Qatar's new world-class gateway to the world, continues with its phased move of airlines from Doha International Airport (DIA) to HIA. Four additional airlines will commence their operations from the new aviation hub in the coming week, with passengers travelling from May 22nd on *Lufthansa, Air France KLM, Saudi Arabian Airlines* and *Oman Air* arriving and departing from HIA instead of DIA.

The first arriving and departing flights will be:

- **Oman Air:** Flight WY667 from Seeb International Airport in Muscat, arriving to HIA at 03:00, and flight WY668 to Seeb International Airport in Muscat, departing from HIA at 04:35
- **Saudi Arabian Airline:** Flight SV542 from King Abdulaziz International Airport in Jeddah, arriving to HIA at 13:10, and flight SV543 to King Abdulaziz International Airport in Jeddah, departing from HIA at 14:10
- **Air France KLM:** Flight KL441 from Amsterdam Airport Schiphol, arriving to HIA at 18:00, and continuing onto Seeb International Airport in Muscat, departing from HIA at 18:45
- **Lufthansa:** Flight LH620 from Frankfurt Airport arriving to HIA at 20:10, and continuing onto Bahrain International Airport, departing from HIA at 21:10

Abdulaziz Al-Mass, Senior Manager, Public Relations and Communications, DIA/HIA said: *"HIA airline operations are gaining momentum with four additional airlines moving from DIA this week. HIA will now service 19 airlines offering passengers a seamless travel experience through the world-class gateway we have created for our departing, arriving or transferring guests. This is an extremely exciting period for us and our key goal during the transition from DIA to HIA is to ensure all our travellers are informed and their travel plans are undisrupted."*

Notes to Editors:

Hamad International Airport is the world's newest aviation hub, a world-class facility that is set to exceed expectations and redefine the passenger and transit experience.

Positioned at the edge of the Arabian Gulf, Hamad International Airport's tranquil waterside setting provides a perfect backdrop for its stylish architectural elements, underpinned by advanced airport systems. It features two runways, among the longest in the world, a state-of-the-art air traffic control tower, a stunning passenger terminal with an initial design capacity of 30 million passengers per year, over 40,000 square meters of combined retail, food and beverage facilities and a uniquely shaped public mosque.
