

Story of Qatar Aircraft Catering Company (QACC)

Launched in August 2002 as the sole airline catering company at Doha International Airport (DIA), QACC was formed to provide exclusive Catering Services to Qatar Airways and other airlines operating from DIA.

Led by an award-winning catering team, QACC has been pushing the boundaries of in-flight cuisine to reflect Qatar Airways five-star reputation

The opening of Hamad International Airport (HIA) marks a significant new chapter in QACC's rapid expansion. The brand new state-of-the-art catering facility at HIA will redefine the standards of airline catering excellence.

One of the world's largest airline catering facilities...

The catering facility at HIA spans an extraordinary 69,000 square metres, making it one of the world's largest self-contained facilities. Located within the airport premises, it produces 150,000 meals per day. The enhanced meal production capacity enables the facility to cater for every airline flying via HIA.

The facility will also provide catering for all 16 lounges, as well as all airport employees.

Watch this space for further updates on how the QACC at HIA will redefine dining experience for passenger on board the flights and on the ground.
